Dear Head Teacher,

Re: After School Childcare

Skool Kidz After School Care has recently set up its latest premises in the Bath area to provide high quality, stimulating and fun after-school childcare. We have established that with the constraints today's working patterns place on family life it is more and more difficult to seek employment and a career based around the school timetable.

We have identified that in Bath and the surrounding areas there is a huge need for this type of care, such that we are currently seeking new locations and partners to help meet this demand.

Our proposal is to offer a complete and independent service to schools, to provide high quality after-school care with the minimum disruption and input from the school. All we would need is an area to rent or lease either within the school premises, like the school hall, or a location in the grounds for a temporary building or classroom.

Initially the sessions will start after school, typically 3pm, and finish between 6pm and 6.30pm. During this time we will provide stimulating, fun and constructive activities, as well as a balanced and nutritional tea. Our aim is to expand the service to offer breakfast clubs and Holiday Club.

If you think this is a service your school, parents or schools within the area would find advantageous, we would be keen to discuss it in more detail with you.

Please contact us using the above details for further information. We look forward to hearing from you.

Kind Regards,

Teresa Simmons
